This document may not be distributed to any persons in contravention of section 21 of the FSMA. Accordingly, the information contained in this communication is made to or directed at solely the following categories of persons within the United Kingdom:

- (a) those persons falling within the definition of Investment Professionals (contained in article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005) ("FPO"); or
- (b) any other persons to whom it can lawfully be communicated in accordance with the FPO, (together, "relevant persons").

This document and the investments to which this communication relates will only be available to relevant persons in the United Kingdom described above and no one falling outside such categories is entitled to rely on, and they must not act on, any information in this document.

The information contained in this document is provided for information and discussion purposes only and is not, and may not be relied on in any manner as, legal, tax or investment advice. This document, as well as any subsequent solicitation related to any investment opportunity, does not constitute an offer or solicitation in any jurisdiction in which such an offer or solicitation is not authorised or in which the person making such an offer or solicitation is not qualified to do so or with respect to any person to whom it is unlawful to make an offer or solicitation. It is the responsibility of each investor (including an investor outside of the United Kingdom) to satisfy itself as to full compliance with the laws and regulations of the relevant jurisdiction and where in any doubt to seek appropriate legal advice.

DISCLAIMER (CONT.)

The Bank provides no guarantees, representations or warranties regarding the accuracy of this information. No third party liability is accepted by the Bank, its directors and employees in respect of errors and omissions other than under the duties and liabilities of the FSMA.

- In the European Economic Area:

This document is not directed at, and no Securities should be offered, sold or otherwise made available to, retail investors in the European Economic Area (the "EEA"). For these purposes, a "retail investor" means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended ("MiFID II"); (ii) a customer within the meaning of Directive 2002/92/EC, as amended or superseded ("Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a "qualified investor" as defined under the Directive 2003/71/EC, as amended or superseded (the "Prospectus Directive"). No key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling any Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling any Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. If you are a retail investor, you should not access this document nor act upon the material contained in this document.

Each person who reviews this document is taken to represent for the benefit of the Bank and its affiliates that it is a person to whom this document may be lawfully distributed in accordance with the laws applicable to that person. TLAC & TIER 2 CAPITAL UPDATE

ANZ'S INTERNATIONALLY COMPARABLE¹ REGULATORY CAPITAL POSITION

APRA Level 2 CET1 – 30 September 2019		11.4%
Corporate undrawn EAD and unsecured LGD adjustments	Australian ADI unsecured corporate lending LGDs and undrawn CCFs exceed those applied in many jurisdictions	1.6%
Equity Investments & DTA	APRA requires 100% deduction from CET1 vs. Basel framework which allows concessional threshold prior to deduction	0.9%
Mortgages	APRA requires use of 20% mortgage LGD floor vs. 10% under Basel framework. Additionally, APRA also requires a higher correlation factor vs. 15% under Basel framework.	1.2%
Specialised Lending	APRA requires supervisory slotting approach which results in more conservative risk weights than under Basel framework	0.7%
IRRBB RWA	APRA includes in Pillar 1 RWA. This is not required under the Basel framework	0.2%
Other	Includes impact of deductions from CET1 for capitalised expenses and deferred fee income required by APRA, currency conversion threshold and other retail standardised exposures	0.4%
Basel III Internationally Comparable CET1		16.4%
Basel III Internationally Comparable Tier 1 Ratio		18.8%
Basel III Internationally Comparable Total Capital Ratio		21.4%

1. Internationally Comparable methodology aligns with APRA's information paper entitled International Capital Comparison Study (13 July 2015). Basel III Internationally Comparable ratios do not include an estimate of the Basel I capital floor

CET1 AND LEVERAGE IN A GLOBAL CONTEXT

Leverage
ANZ compares equally well on leverage, however international comparisons are more difficult to make given the favourable treatment of derivatives under US GAAP

1. CET1 and leverage ratios are based on ANZ estimated adjustment for accrued expected future dividends where applicable. ANZ ratios are on an Internationally Comparable basis. All data sourced from company reports and ANZ estimates based on last reported half/full year results assuming Basel III capital reforms fully implemented 2. Includes adjustments for transitional AT1 where applicable. Exclude US banks as leverage ratio exposures are based on US GAAP accounting and therefore incomparable with other jurisdictions which are based on IFRS.

AUSTRALIA'S TLAC REGIME

APRA'S TLAC REQUIREMENTS

- APRA has announced that it will require Australian D-SIB's to meet TLAC requirements by an **increase in Total Capital of 3%** of RWA by Jan 2024
- Its overall targeted calibration of an additional 4%-5% of RWA to meet TLAC remains unchanged, so over the next four years they will consider "feasible alternative methods" for raising an additional 1% to 2% of RWA

ANZ'S TOTAL REGULATORY CAPITAL

- Based on ANZ's RWA of AUD417b as at 30 September 2019, the additional 3% equates to an incremental increase of approximately **~AUD12b of Tier 2 capital**
- This will result in an estimated Total Capital ratio, on an internationally harmonised basis of **~25%** well in excess of the FSB TLAC minimum of 21.5% (18% plus Capital Conservation Buffer (CCB) of 3.5%)
- Tier 2 capital outstanding as at 30 September 2019 is ~AUD8.5b (2.1% of Level 2 RWA)
- Total Tier 2 requirement (including refinancing) by January 2024 is ~AUD21b (5.0% of Level 2 RWA)

1. APRA may set higher minimum capital requirements for individual ADIs. A counter-cyclical buffer of up to 2.5% may also be required, which APRA has currently set for Australia at 0%.

CET1 VOLUME IN EXCESS AT UNQUESTIONABLY STRONG, MANAGEMENT ACTIONS AND PROFITABILITY PROTECT TIER 2 INVESTORS

BUFFERS AND PROTECTIONS FOR TIER 2 INVESTORS

Management Actions	Possible actions that may be considered to strengthen capital include: • Reducing dividend payout • DRP discount and underwrite • New share issuance • Expense management • Restricting RWA growth
CCB Restrictions	Regulatory restrictions on ordinary share dividends, discretionary bonuses and AT1 distribution payments if CCB buffer is breached
Hierarchy Respected	Mandatory conversion to equity or write-off of AT1 securities if CET1 ratio falls to 5.125% of RWA or at the point of non-viability (determined by APRA)

ANZ'S BALANCE SHEET AND EARNINGS BUFFERS

1. Future earnings are not forecast. Cash Profit before provisions and tax for the 12 months to 30 September 2019 was AUD10.0b. Represents an additional potential amount available for loss absorption.

ANZ'S TIER 2 CAPITAL PROFILE¹

ANZ'S TIER 2 CAPITAL REQUIREMENT TO PROGRESSIVELY INCREASE POST TLAC ANNOUNCEMENT

- Issued AUD1.75b in July 2019
- Current portfolio includes 38% in AUD (32% domestic AUD) – strong capacity remaining in AUD
- Annual total T2 issuance expected to be ~AUD4bn
- Required portfolio increase from AUD7.6b to ~AUD21b by January 2024
- Potential issuance in multiple currencies in both callable and bullet format
- Capacity in EUR T2 with no current outstandings following recent Sep-19 maturity
- No AUD retail T2 outstanding
- Extensive global USD T2 investor base
- ANZ has historically had strong support from Asian local currency markets, both in benchmark and Private Placement format
- Increased T2 issuance expected to be offset by reduction in other senior unsecured funding
- Well managed amortisation profile provides flexibility regarding issuance tenor

PROPOSED TRANSACTION OVERVIEW

ANZ IS CONSIDERING AN INAUGURAL SDG TIER 2 TLAC ELIGIBLE BOND ISSUE

- On January 1 2016, the SDGs came into effect. The 17 goals and 169 targets are aimed at **solving the world's most pressing sustainable development challenges** – ending global poverty, protecting our planet and ensuring human rights – by 2030.
- In September 2016 our CEO Shayne Elliott joined over 30 leaders from the Australian business community to sign a public CEO Statement of Support for the Goals.
- In September 2019 ANZ became a founding signatory to the UN Principles for Responsible Banking, a key aim of which is to accelerate the banking industry's contribution to the achievement of society's goals as expressed in the SDGs and the Paris Climate Agreement.
- On 4 November 2019 our CEO announced **ANZ's new 2025 sustainable financing target of AUD50bn**. This is targeted towards initiatives that help improve environmental sustainability, increase access to affordable housing and promote financial wellbeing and is directly mapped to 6 of the SDGs.
- ANZ issued an inaugural EUR750m 5 year fixed rate SDG senior bond transaction in February 2018.
- ANZ's proposed transaction would be one of the first "follow on" SDG transactions from an issuer. It would also be the first SDG bank capital transaction from an Australian Bank.
- ANZ's proposed SDG Tier 2 bond will rank **pari passu** with all other ANZ outstanding Tier 2 debt instruments.
- Proceeds of this bond and ANZ's first SDG bond will be used to partially **finance or refinance** an AUD3,394m / EUR2,096m* pool of ANZ loans and expenditures that **directly promote the SDGs** ("Eligible Assets") as identified in the **ANZ SDG Bond Framework**.
- Payment of interest or principal is **not linked to the credit or sustainability performance** of the Eligible Assets.
- ANZ continues to observe and support the development of "sustainable" capital markets. A Tier 2 SDG bond would be a natural evolution for ANZ following the successful issuance of our inaugural EUR750m SDG senior bond in February 2018.

*Eligible Asset volumes are as at 30 September 2019. AUD total figure is equivalent to EUR 2,096m using AUD/EUR exchange rate as at 30 September 2019. Please note that the Issuer has issued, and may, from time to time, issue Other SDG Securities and use their proceeds of issue to finance or refinance Eligible Assets. The Issuer may, from time to time, re-allocate or apportion at its discretion Eligible Assets among the Notes and other SDG Securities. The Eligible Assets currently support an existing EUR750m Senior Unsecured 0.625 percent Notes due 21 February 2023 (XS1774629346) and proposed transaction.

ANZ EMTN EUR TIER 2 SUBORDINATED SDG NOTES KEY TERMS

Issuer	Australia and New Zealand Banking Group Limited (ABN 11 005 357 522) ("ANZ")
Issuer Senior Ratings	Aa3 (Stable) AA- (Stable) AA- (Negative) (Moody's/S&P/Fitch)
Expected Issue Rating²	Baa1 BBB + A+ (Moody's/S&P/Fitch)
Programme / Documents	Information Memorandum for ANZ's Euro Medium Term Note Programme dated 21 May 2019 ("Information Memorandum") as supplemented ¹
Status	Subordinated Notes. The Subordinated Notes will be direct, unsecured and subordinated obligations of ANZ and are expected to constitute Tier 2 capital of ANZ
Ranking	The Subordinated Notes will rank equally among themselves and with Equal Ranking Securities, behind Senior Creditors and ahead of Junior Ranking Securities as described in the Information Memorandum
Format	Fixed Rate Sustainable Development Goals (SDG) Subordinated Notes; Registered Form; EUR denominated
Early Optional Redemption Date	– Issuer may redeem the Notes in whole (but not in part) at its discretion on: (i) the specified date if there is an Issuer Call Option; (ii) certain tax events; or (iii) certain regulatory events. – Redemption at prevailing principal amount plus accrued but unpaid interest. – Early redemption of the Subordinated Notes is subject to APRA's prior written approval
Clearing	Euroclear, Clearstream
Min Denom	EUR100k with integral multiples of EUR1k
Other	ASX wholesale debt listing (securities are not quoted for trading on ASX); IWT exempt (except as specified in the Information Memorandum); No set-off or cross-default
Governing Law	English law, except for conversion, write-off and subordination provisions which are governed by Victorian and Australian law

1. Defined terms have the meaning contained in the Information Memorandum.

2. Ratings may be changed, suspended or withdrawn at any time and are not a recommendation to buy, hold or sell any security.

Non-Viability Trigger Event	A Non-Viability Trigger Event occurs when APRA has provided a written determination to ANZBGL that the conversion or write-off of certain securities of ANZBGL is necessary because without either such Conversion or Write-Off or a public sector injection of capital, ANZBGL would become non-viable
Loss Absorption Mechanism	- If a Non-Viability Trigger Event occurs, ANZ will be required to immediately convert some or all of the principal amount of the Subordinated Notes into ANZ ordinary shares¹ - Subordinated Notes only absorb loss after all Additional Tier 1 Securities are written off or converted to ordinary shares (in full) - A mechanism to sell any shares issued as a result of conversion and deliver cash to investors is included in the programme if the noteholder (1) notifies the Issuer prior to the Non-Viability Trigger Event that it does not wish to receive shares; (2) is a foreign holder; or (3) in certain other instances specified in the Information Memorandum - If conversion does not occur within 5 Business Days of a Trigger Event Date, the Notes will be written off (with effect from the Non-Viability Trigger Event)
Conversion Price	- Variable with 1% discount to the 5 Business Day VWAP prior to the Non-Viability Trigger Event (subject to a floor set at 20% of the VWAP over the 20 Business Days prior to the Issue Date) - VWAP is calculated as the equivalent in the specific currency (if the Notes are not denominated in AUD)
Use of Proceeds	- ANZ intends to use an amount equal to the net proceeds of the issue of the Notes to finance or refinance Eligible Assets which satisfy ANZ's SDG Bond Framework - A failure by ANZ to: (i) allocate and use the proceeds as described in the Framework; (ii) comply with the framework or prepare reports; or (iii) the failure of any third-party opinions will not be an Event of Default and holders will have no recourse to ANZ - No security interest in the Eligible Assets is created
Selling Restrictions	As set out in the section headed "Subscription and Sale" in the Information Memorandum

If Call Option:

Issuer Call Option	- In whole (but not in part) at the Issuer's discretion on the Interest Payment Date scheduled to fall on [] at the prevailing principal amount plus any accrued but unpaid interest - Early redemption of the Subordinated Notes is subject to the prior written approval of APRA
---------------------------	---

1. All Notes must convert into ANZ ordinary shares or are written off in the event that APRA has notified ANZ in writing that without a public sector injection of capital, or equivalent support, ANZ would become non-viable.

SUSTAINABILITY AT ANZ

ANZ AND THE SDGs

ANZ IS A SIGNATORY TO THE CEO STATEMENT OF SUPPORT ISSUED BY THE UN GLOBAL COMPACT NETWORK OF AUSTRALIA IN SEPTEMBER 2016

In November 2019, we announced our commitment to a new AUD50b 2025 Sustainability Target aligned to the SDGs

On January 1 2016, the United Nations SDGs came into effect. The 17 goals and 169 targets are aimed at **solving the world's most pressing sustainable development challenges** – ending global poverty, protecting our planet and ensuring human rights – by 2030.

ANZ recognises the important role businesses will play in achieving the SDGs and believes them to **represent an opportunity for business-led solutions** and technologies to be developed and implemented

ANZ HAS AN INTEGRATED APPROACH TO SUSTAINABILITY

PURPOSE

ANZ’s purpose is to shape a world where people and communities thrive

ANZ’s Board has the highest level of oversight for sustainability

We were the first bank globally to report using the recommendations of the TCFD

Chaired by ANZ’s CEO, the **Ethics and Responsible Business Committee** is accountable for advancing ANZ’s purpose

ESG TARGETS

We exceeded our 2015 commitment to fund and facilitate at least **AUD15bn** in environmentally sustainable solutions by **October 2020**

We recently announced a new commitment to fund and facilitate **AUD50bn by 2025** towards sustainable solutions

In 2018 we renewed our support for Paris and issued a revised Climate Change Statement committing us to encourage and support 100 of our largest emitting customers transition to a low carbon economy

ANZ has introduced a new target to procure **100% renewable electricity** for our global operations by 2025

ANZ’s business operations have been **carbon neutral since 2010**

ANZ has **committed to enable social and economic participation of 1 million people by 2020** through our initiatives to support financial wellbeing

Through the **Healthy Homes initiative**, we have committed to provide NZD100m of interest free loans to insulate homes for ANZ mortgage holders in New Zealand

TEAM

ANZ Group Treasury has implemented Green and Sustainability Bond programs with ~AUD1.8bn on issue currently, and intends to target annual issuance with their programs.

ANZ has a **dedicated Sustainable Finance team** that actively works with institutional customers to fund requirements for a transition towards a low carbon, more sustainable economy

ANZ was awarded the **Best Sustainable Finance House 2018 award by FinanceAsia**

Contributed to market development across Asia Pacific through the following industry group memberships:

- ICMA Green Bond Principles
- Climate Bonds Initiative (CBI) partner
- LMA/APLMA Green Loans Committees
- SteerCo & Technical Working Group Members/Leads – Australian Sustainable Finance Initiative and NZ Sustainable Finance Forum
- UN Global Compact’s Action Platform for Financial Innovation of the SDGs

“Each year, ANZ sets public targets which reflect our strategic priorities and respond to our most material environmental, social and governance issues (ESG).”

- news.anz.com 4 November 2019

“ESG used to be something you did as an add-on. Now it’s an integral part of how we run the bank – it’s part of everything we do.”

Shayne Elliott, CEO

ANZ'S ESG RATING SCORECARD

TRACKING OF EXTERNAL ESG RATING PERFORMANCE

Context:

Our reputation indicators identify our key weakness, scrutinised in the Royal Commission, as our failure to always responsibly deliver products and services, e.g. fees for no service.

Outcome:

Reputation indicators for ANZ and other major banks show long-term, mid-range rank among major corporates, followed by 12 months of decline throughout the Royal Commission. All indicators are consistent.

SDG BOND FRAMEWORK & ELIGIBLE ASSETS

ANZ SDG BOND PROGRAMME OVERVIEW

ANZ SDG Bond Framework

- Aligned to the UN SDGs and updated to align to the 2018 ICMA Principles and Guidelines
- Obtained a second party opinion from Sustainalytics¹ to confirm alignment of the ANZ SDG Bond Framework with the 2018 ICMA Principles and Guidelines (this opinion is available on the ANZ [Debt Investor website](#))
- Obtained pre-issuance assurance from Ernst & Young (EY)² to confirm that the allocation of proceeds to eligible assets has been done in accordance with the ANZ SDG Bond Framework. ANZ will continue to obtain assurance on an annual basis (these assurance statements are available on the ANZ [Debt Investor website](#))

Governance

ANZ's SDG Programme adheres to the four pillars:

- 1. Use of Proceeds –**
 - Project Finance loans, Corporate loans and ANZ expenditures aligned to the Eligible Categories
 - Corporate loans must have a definable purpose that derive at least 90% of their revenue from activities in the Eligible Categories
- 2. Process for Evaluation & Selection –**
 - 9 of the 17 SDGs were selected based on ANZ's business activities and operations
- 3. Management & Tracking of Proceeds**
 - Green Bond Working Group ensures proceeds remain allocated
 - Monthly monitoring of the eligible asset register/pool

ANZ IS A LEAD ISSUER IN SUSTAINABILITY BONDS

ANZ'S INAUGURAL SDG BOND WAS ISSUED IN FEBRUARY 2018

- The ANZ SDG Bond Framework was developed in line with the International Capital Market Association ("ICMA") Green Bond Principles ("GBP"), Social Bond Principles ("SBP") 2017, and related Sustainability Bond Guidelines 2017 ("SBG")
- ANZ's successful inaugural SDG Bond issued in February 2018 was a EUR750m 5 year senior unsecured, paying fixed rate annual coupons, ranking pari passu with all other ANZ senior unsecured debt instruments
- Proceeds were used to finance or refinance an AUD1,450 / EUR925¹ pool of ANZ loans and expenditures that directly promote the SDGs ("Eligible Assets") as identified in the ANZ SDG Bond Framework
- The inaugural SDG Bond Impact Report was published in July 2019 and Use of Proceeds reports have been published semi annually
- Payment of interest or principal is not linked to the credit or sustainability performance of the Eligible Assets

2. ANZ wishes to highlight and draw investors' attention to the fact that the impact figures above, other than in respect of SDG 10, have been presented, analysed and recorded at the project level and have not been apportioned in accordance with the volume of ANZ's lending to each project. Although ANZ is a co-financier, impact figures have not been presented on the basis of the volume of ANZ's lending to each project at this stage. In instances where ANZ's lending to a project is nil at 31 March 2019 (i.e. a loan facility continues to exist, however the lending is undrawn at that time), the impact figures for the individual projects remain incorporated in the aggregated impact data. This treatment has been applied in order to protect the confidentiality of ANZ's customers.

INDEPENDENT REVIEW

SUSTAINALYTICS OPINION AND ERNST & YOUNG ASSURANCE

ANZ retains a second party opinion from Sustainalytics¹ to confirm the alignment of the ANZ SDG Bond Framework with the GBPs, SBPs and relevant SDGs.

"Overall, Sustainalytics is of the opinion that the ANZ SDG Bond Framework is credible and transparent as: (i) it aligns with the Sustainability Bond Guidelines 2018, (ii) it transparently links example projects and eligibility criteria, as well as assets to the SDGs, and (iii) ANZ commits to report transparently on social and environmental impact, and progress towards the SDGs annually throughout the term of the bond"

- Sustainalytics

This opinion is available on the ANZ [Debt Investor Website](#)

ANZ has also obtained pre-issuance assurance from Ernst & Young ("EY")² to confirm that the proposed allocation of proceeds to Eligible Assets has been done in accordance with the ANZ SDG Bond Framework. ANZ will continue to obtain assurance on an annual basis.

"Based on our reasonable assurance procedures, as described in this statement as of 01 November 2019, in our opinion ANZ's bond issuance process in relation to its Sustainable Development Goals (SDG) Bond meets the requirements of the Sustainability Bond Guidelines 2018 and associated Social Bond Principles 2018 and Green Bond Principles 2018, in all material respects"

- EY

These assurance statements are available on the ANZ [Debt Investor Website](#)

REGULATORY CAPITAL

CAPITAL UPDATE

- APRA Level 2 CET1 ratio of 11.4% (16.4% on an Internationally Comparable basis¹), which is in excess of APRA's 'unquestionably strong' benchmark².
- APRA Level 1 CET1 ratio of 11.4%. Level 1 consolidation primarily comprises ANZ BGL (the Parent including offshore branches) but excludes offshore banking subsidiaries³.
- APRA Leverage ratio of 5.6% (or 6.2% on an Internationally Comparable basis).
- Asset divestments contributed ~\$2b in 2H19 (mainly divestment of OPL Australia)
- Pro-forma adjusted CET1 ratio of ~11.5%, including benefits from P&I divestment (~20bps), partially offset by IFRS16 impacts (~-7bps)

Organic Capital Generation

- Net organic capital generation of 75bps for 2H19 – in line with historical averages of ~80bps (excluding Institutional rebalancing)

Capital Outlook – Regulatory Development

- RBNZ capital proposal – Potential impact of NZ\$6b to NZ\$8b for ANZ NZ (from Sep-18). Final impact depends on the outcome of the RBNZ consultation.
- APRA loss absorbing capacity (TLAC) – Total Capital requirements increased by 3% of RWA (~\$12b in Tier 2 based on Sep-19 position) by January 2024.
- Revisions to treatment of equity investments in subsidiaries - in the absence of any offsetting management actions, this implies a reduction in ANZ's Level 1 CET1 capital ratio of up to approximately \$2.5b (75bps). However, ANZ believes that this outcome is unlikely and, post implementation of management actions, the net capital impact could be minimal.
- Other ongoing APRA regulatory reviews potentially impacting the future capital position include: Revisions to capital framework (RWA), Unquestionably Strong capital calibration, and the Transparency, Comparability and Flexibility proposals.

APRA LEVEL 2 COMMON EQUITY TIER 1 (CET1)

LEVEL 2 BASEL III CET1

1. Internationally Comparable methodology aligns with APRA's information paper entitled International Capital Comparison Study (13 July 2015). Basel III Internationally Comparable ratios do not include an estimate of the Basel I capital floor 2. Based on APRA information paper "Strengthening banking system resilience – establishing unquestionably strong capital ratios" released in July 2017 3. Refer to ANZ Basel III APS330 Pillar 3 disclosures 4. Cash NPAT excludes 'Large/notable' items' and one-off items 5. Mainly comprises the movement in retained earnings in deconsolidated entities and capitalised software 6. Includes SA-CCR (-18bps); APRA Operational Risk overlay (-18bps); and RWA floors for NZ housing/farm exposures (-18bps) 7. Other impacts include movements in non-cash earnings and net foreign currency translation

1. Change in methodology introduced in 2H19 to measure components of CP charge

2. Coverage ratio calculated as Provision Balance to Gross Loans & Advances for on-balance sheet exposures. Reduction in 2H19 stage 2 coverage ratio is a result of (a) Denominator effect: increased stage 2 GLA in Australian home loans due to implementation of a revised provisioning model plus higher delinquency levels, and (b) Numerator effect: stable stage 2 ECL with the home loan ECL increase offset by decreases for other Australian portfolios and Institutional

COMMERCIAL PROPERTY PORTFOLIO

COMMERCIAL PROPERTY OUTSTANDINGS BY REGION

1. APEA = Asia Pacific, Europe & America

COMMERCIAL PROPERTY OUTSTANDINGS BY SECTOR

PROPERTY PORTFOLIO MANAGEMENT

- Australian exposure increased by 2% HOH driven by higher lending to Funds and REITs in the Industrial sector partly offset by a decline in Residential lending given the slowdown in the residential property market. Retail exposure declined over the half and the Retail portfolio continues to be closely monitored owing to the weak operating environment
- Slight decline in New Zealand exposure was driven by exchange rate movements and some significant repayments occurring during 2H FY19
- APEA exposure remained stable for 2H19 with the portfolio concentrated on large well rated names in Singapore and Hong Kong. The Hong Kong Property market has seen a 1% index decline given current unrest. Market consensus estimates a decline as high of 10-20% if the protests continue through the year. The Hong Kong property portfolio remains subject to close monitoring of internal and external metrics

RESIDENTIAL DEVELOPMENT

OVERVIEW

- Average qualifying pre-sales for Inner City Apartment Development loans and corresponding LVRs were 101% and 52%, respectively as at Sep 19 (as compared to presales of 101% and LVR of 49% in Mar 19). These loans remain subject to tight parameters around LVR, presale debt cover and quantum of foreign purchaser presales. Overall appetite for Apartment Development has remained unchanged over the last half. The quality and experience of developers and builders remains a key selection criterion.
- Outside of Inner City locations, development exposures are predominantly in the suburbs of the capital cities of the above listed states.
- Residential Development projects continue to be closely monitored with level of oversight driven by progress of the project vs. plan, industry trends and emerging risks.

THERMAL COAL EXPOSURE

RESOURCES PORTFOLIO MANAGEMENT

- Portfolio is skewed towards well capitalised and lower cost resource producers.
- 32% of the book is less than one year duration.
- Investment grade exposures represent 79% of the portfolio vs. 68% at Sep 18.
- Increase in total coal mining exposure in FY19 primarily reflects mergers and acquisitions activity related to existing mines in 1H19, ie predominantly metallurgical coal assets sold by diversified miners to existing customers along with foreign currency exchange movements. Financing is mainly used to support continuing operations, and not mine expansions.
- Thermal coal exposure is currently \$838m. We expect our thermal coal exposure to decline over time, as it has since 2015 (reducing by 50% between FY15-FY19). Decreased exposure in 2H19 compared to 1H19 reflects ongoing portfolio management and application of ANZ policies. Our exposures to thermal coal are primarily concentrated in a small number of Australian-based miners.
- Exposure to metallurgical coal mining (used for steel making) is currently \$686m.

STRESS TESTING THE AUSTRALIAN MORTGAGE PORTFOLIO

- ANZ conducts regular stress tests of its loan portfolios to meet risk management objectives and satisfy regulatory requirements.
- Stress tests are highly assumption-driven; results will depend on economic assumptions, on modelling assumptions, and on assumptions about actions taken in response to the economic scenario.
- This illustrative recession scenario assumes significant reductions in consumer spending and business investment, which lead to eight consecutive quarters of negative GDP growth. This results in a significant increase in unemployment and material nationwide falls in property prices.
- Estimated portfolio losses under these stressed conditions are manageable and within the Group's capital base, with cumulative total losses at \$2.7b over three years (net of LMI recoveries).
- The results have marginally improved from the stress test six months ago. Key reason for the stressed losses reduction is the improved property price outlook and the impact of the three rate cuts since May 2019, which are reflected in the underlying scenario.

1. Negative Loss ratios are the result of reductions in outstanding claims provisions. Source: APRA general insurance statistics (loss ratio net of reinsurance) 2. Aggregate Stop Loss arrangement – reinsurer indemnifies ANZLMI for an aggregate (or cumulative) amount of losses in excess of a specified aggregate amount. When the sum of the losses exceeds the pre-agreed amount, the reinsurer will be liable to pay the excess up to a pre-agreed upper limit 3. Quota Share arrangement - reinsurer assumes an agreed reinsured % whereby reinsurer shares all premiums and losses accordingly with ANZLMI

ROYAL COMMISSION UPDATE & REGULATORY REFORMS

ROYAL COMMISSION

OUR APPROACH, OUR RESPONSE

WE ARE RESPONDING TO THE 'SPIRIT AND THE LETTER' OF THE ROYAL COMMISSION.

Initial response

- Committed in February 2019 to sixteen actions that we can take now including:
 - removing overdrawn and dishonour fees on our Pensioner Advantage account
 - improving our service to Indigenous customers in remote communities by setting up a dedicated phone service and giving them easier options to prove their identity
 - publishing principles to help family farming customers in financial distress
 - publishing principles on acting as a model litigant in disputes with our customers
 - implementing pay reforms that replace individual-based bonuses for most of our employees with an incentive based on the overall performance of the Group
- Reviewed individual cases highlighted at the Commission and taken action where appropriate to resolve the matters
- Reported to Government that we have made significant progress on the RC recommendations directed at banks, concerning distressed agricultural loans, remuneration of front line staff, the Sedgwick Review and changing culture and governance

Lessons from our experience

- Identified eight lessons from our misconduct and failures to meet community standards and expectations to inform our response to the 'spirit and letter' of the Royal Commission
- Now identifying measures that will allow us to be confident that these lessons have been acted on

Governance – aligned to the APRA self-assessment

- Established a Royal Commission and Self-Assessment Oversight Group to oversee an integrated response to the Royal Commission and Self-Assessment. The Oversight Group is chaired by the Deputy Chief Executive Officer and includes the Group Chief Risk Officer

Constructive engagement with reform

- Engaging constructively with Government and its agencies as they implement the recommendations directed at them
 - Government has indicated that majority of its reforms will be consulted on and introduced into Parliament by the end of 2020

STRENGTHENING OUR RISK CULTURE

- We have strengthened the way we deal with risk events through an enhanced Accountability and Consequence Framework, which is applicable to all of our people.
- In 2019 across the Group, 151 employees were dismissed for breaches of our Code of Conduct. A further 516 employees received a formal disciplinary outcome, with managers required to apply impacts to their performance and remuneration outcomes as part of the annual review process.
- At the senior leadership level, 30 current or former senior leaders (senior executives, executives and senior managers) received a consequence in 2019 for Code of Conduct breaches or findings of accountability for a material event, or otherwise left the bank after an investigation had been initiated.
- The 30 employees represent ~ 1% of the senior leader population. The consequences applied included warnings, impacts to performance and/or remuneration outcomes and cessation of employment.

'WHAT WE CARE ABOUT MOST' – A YEAR IN REVIEW

Build leadership in key areas

More Australians and New Zealanders have access to affordable, liveable, sustainable housing	- Joint Lead Manager on \$315m National Housing Finance and Investment Corporation bond, and NZD\$500m and NZD\$600m bonds for Housing New Zealand to provide new and upgraded social housing - Provided >1,800 interest-free loans to improve the health of New Zealand households through our New Zealand 'Healthy Homes' initiative
The food, beverage and agricultural sector is more sustainable and financially resilient	- Supported the purchase of the Great Cumbung Swamp - Australia's largest purchase of mixed-use conservation and agricultural property by dollar value - Advisor and Joint Lead Manager on \$400m green bond for Woolworths Group to improve energy efficiency (solar, lighting, refrigeration systems) in its supermarkets
Australia's energy supply, transmission and distribution is more efficient, cleaner and affordable	Project finance commitment to renewable energy increased ~27% from FY18 \$1,076m to FY19 \$1,371m (figure quoted is project finance made on a non or limited recourse basis and excludes corporate debt facilities)

Ensure ANZ is living up to its commitments

Improve our standards and practices	- Established a \$100m Housing 'Virtual Fund' to support the financing of more affordable, secure and sustainable homes - Committed to 100% renewable electricity across our global premises by 2025
Develop products and services	- Expanded sustainable finance offering to establish sustainability-linked loans market in Australia and New Zealand - Continued expansion of Home Buyers Coach training, currently >3,300 home coaches active in Australia and New Zealand
Use insights, advocacy and partnerships	- Delivered new housing market insights with bi-annual ANZ-Core Logic Housing Affordability Report - Conducted research to assess the impact of Money Minded on financial wellbeing

Continue to improve housing, environment and financial wellbeing outcomes for the community

Alleviate homelessness	- Supported youth employment through the opening of two social enterprise cafés: Home.Two and STREAT - Raised >\$150k for the St Vincent de Paul 'CEO Sleepout' - equivalent to providing >5,000 meals for those experiencing homelessness
Connect to the environment	- Over 18,000 hours volunteered by employees towards environmental sustainability - More than 1,250 employees volunteered with Sustainable Coastlines New Zealand collecting more than 10,000 litres of rubbish
Facilitate financial inclusion	- Through ANZ Technology 'Return to Work' program we employed 30 women who had been out of the workforce for an extended period - Improved the financial literacy of >87,500 people through our Money Minded program

SUPPORTING OUR CUSTOMERS AND TRAINING OUR STAFF ON THE DEVELOPMENT OF LOW CARBON TRANSITION PLANS

CUSTOMER MANAGEMENT AND STAFF TRAINING

ANZ customer management informed by climate-related engagement

- We have identified carbon-intensive sectors most likely to be impacted by climate change
- There are 100 of our largest emitting business customers in those sectors
- We are supporting these customers to establish, or strengthen their low carbon transition plans
- We will use the results of this engagement to inform our risk assessment of customers in these sectors

Training our staff to engage with customers on climate-risk

- This year we provided training to over 1,000 bankers in our Institutional and Corporate businesses. The training covered:
 - how climate-related risks and opportunities might manifest for our customers
 - what elements we would expect to see in a robust transition plan
 - market and regulatory drivers that are focusing stakeholder attention on our customers
 - whether they have plans in place to manage their climate-related risks and opportunities

CUSTOMER EXAMPLE: BHP'S TRANSITION PLANNING

BHP has an integrated strategy including:

- Targets to hold net operational emissions at or below FY2017 levels by FY2022 while continuing to grow their business.
- Active stewardship role working with customers, suppliers and other value chain participants to influence reductions in scope 3 including:
 - A commitment to spend US\$400m to develop technology to reduce emissions.

HOW WE SUPPORT OUR CUSTOMERS – INCLUDING INCORPORATION OF CLIMATE-RISK MANAGEMENT

1. 2019 focus on ANZ staff managing specific higher carbon emitting customers
